## Note From Jerry In The Studio...

Half step in on these chord by hitting the note shown with the \*.

Then hit the A note on the E string (shown here as 2).

Next, apply the hybrid picking drill by playing the D&E string on the fifth fret.

To do this, just use your #3 and #4 fingers together on your picking hand.

Easy enough.

Next, do the same thing using the D Blues Chord (shown in red). Remember to do the half step in first.
