REPEAT
Same as open

Number 1 (in green) is the note that sets up the root/key (key of A).
The numbers shown are the order to play this run. It has an awesome sound like it's going to fall off the neck and never end.

Note From Jerry In The Studio...

This is a killer sounding little run!

Remember you can get to this position super easy by doing "Going Country - Not!"

Look for places you can grab a Gimme note.

One example would be to replace number 19 with the a note on the 17th fret on the G string!

This is so easy to do.

Two frets up and two strings down!

Just look at it close and experiment.
