Note From Jerry In The Studio...

This is a great little four note phrase. Just play the notes in the order they are shown.

The green diamonds are alternate notes to play when you get to the fourth note in the phrase.

Now be smart. You can experiment with this.

What if you play a "Gimme" or land somewhere else in the Pentatonic Minor when you get to the fourth note.

Don't over complicate this. It's very easy.

Start out slow and speed it up.
