

GEOSHAPES (PART 2) "THE DIAMOND" CHART 1 (THE KEY OF E)

Confused? Watch the video again until it sinks in!

Open String Note

Shown is the basic Diamond in the key of E as it sits in the "Going Country - Not" pattern (shown in gray dots).

12th Fret Repeats Same as open

GEOSHAPES (PART 2) THE DIAMOND CHART 1 KEY OF E (estimated learning time: 45 minutes) learnguitarfastandeasy.com

jerry wyatt 2010.

In this chart, we're moving the Diamond up to the key of E (at the 12th fret).

We'll also move it to the next two strings and finish it with a Triangle on the bottom two strings just like we did in the video lesson.

* The Diamond at the 7th fret (shown in red) shows us how it sits in the "Going Country - Not" pattern. Can you find any additional Diamonds in the gray dots that make up the "Going Country - Not"?

Remember... the Diamond or the Triangle do not have to be perfect in shape. They can be odd in their shape.

Look at that quirky one in the small green dots!

Feeling frisky? Mix the Diamond shapes at the 12th fret with those back at the "Going Country - Not" and create some wild sounding licks! Just connect the dots and make your own Diamond or Triangle!
